I appreciate to the full the force of the argument you urged against his renomination. It is not pleasant for me to support a man who has wantonly behaved hadly to the very men who did most in securing his selection. I would approve his turning them down in the public interest, but I object to its being done wantonly. Moreover I appreciate that he has allenated quite needlessly very many voters, and if we had the right man to put in his piace (the right man from the standpoint of getting votes). I should say that I should certainty wish to nominate that man. But no such man is in sight, and there does not seem to be the slightest chance of his arising.
